Our Best Silk Sale!

The Savings Extend to Half

Yes, customers are buying dress, blouse and coat lengths to give on Christmas. This is right in accord with the essentially practical form that gift giving has taken in the past few years. The fact that a gift is usuable, filling the need in every day life, does not rob it of a spark of sentiment, and it does add to it the robust and wholesome quality of practicality.

Were ever good and usuable silks so cheap before? We do not think so. And the rush of buying all day long on Monday substantiates our opinion. Several thousand women think just as we do about it. Individuals may make mistakes, but collective bodies of thousands do not

Reasons Why the "Standard Rotary" Is the Best Machine

It makes either the two thread lock stitch or single thread chain stitch.

It runs far more quietly, decidedly easier and faster than any other style.

It is the fastest sewer, making 175 stitches while others make 100; one-third less foot work and a saving of three hours in every seven.

It does not break the thread when run back

It makes the prettiest and most elastic stitch. The tension is released automatically when the presser foot is faised.

The shortest needle used in lock stitch machines, therefore will not bend and skip stitches.

The "Standard Rotary" has the largest bobbin of any lock stitch machine. Holds 100 yards of No. 80 cotton thread.

Best ball-bearing stand fitted with cone screws to take up wear; practically indestructible.
